

## MFS Technology Strengthens Global Manufacturing Platform with Strategic Malaysia Expansion

**SINGAPORE/MALAYSIA, 13th February 2026** – MFS Technology is pleased to announce that it has reached an agreement to acquire SunPower Malaysia Manufacturing Sdn. Bhd. This strategic milestone marks a significant expansion of MFS Technology’s global manufacturing platform and reinforces our position as a trusted partner for high-reliability, high-precision, and interconnect solutions.

The acquisition **enhances MFS Technology’s manufacturing scale and geographic resilience**, enabling us to support customers with greater capacity, operational flexibility, and long-term supply-chain stability. It reflects the disciplined growth strategy and our continued investment in advanced manufacturing to meet rising global demand.

Founded in Singapore in 1988, MFS Technology, a subsidiary of Victory Giant Technology, is a global pioneer in high-precision interconnect technology, with deep expertise in flexible printed circuits, rigid-flex, HDI, and heavy-copper multilayer PCBs, serving **Automotive, Medical, Industrial, Consumer, Mobile, and AI-driven Markets** worldwide. Our proprietary innovations—including **MIS-Flex®** for minimally invasive medical imaging and **Cable Flex®**, a solution that replaces conventional **Battery Management System (BMS) cables**—demonstrate our ability to deliver well differentiated, mission-critical solutions for next-generation automotive, industrial, and medical applications.

With an established manufacturing network across **Malaysia and China** and a strong global customer base, **MFS Technology continues to grow from strength to strength**, providing our customers and partners with the confidence of scale, technology leadership, and long-term commitment.
